

Antipodes

New Zealand Artesian Water

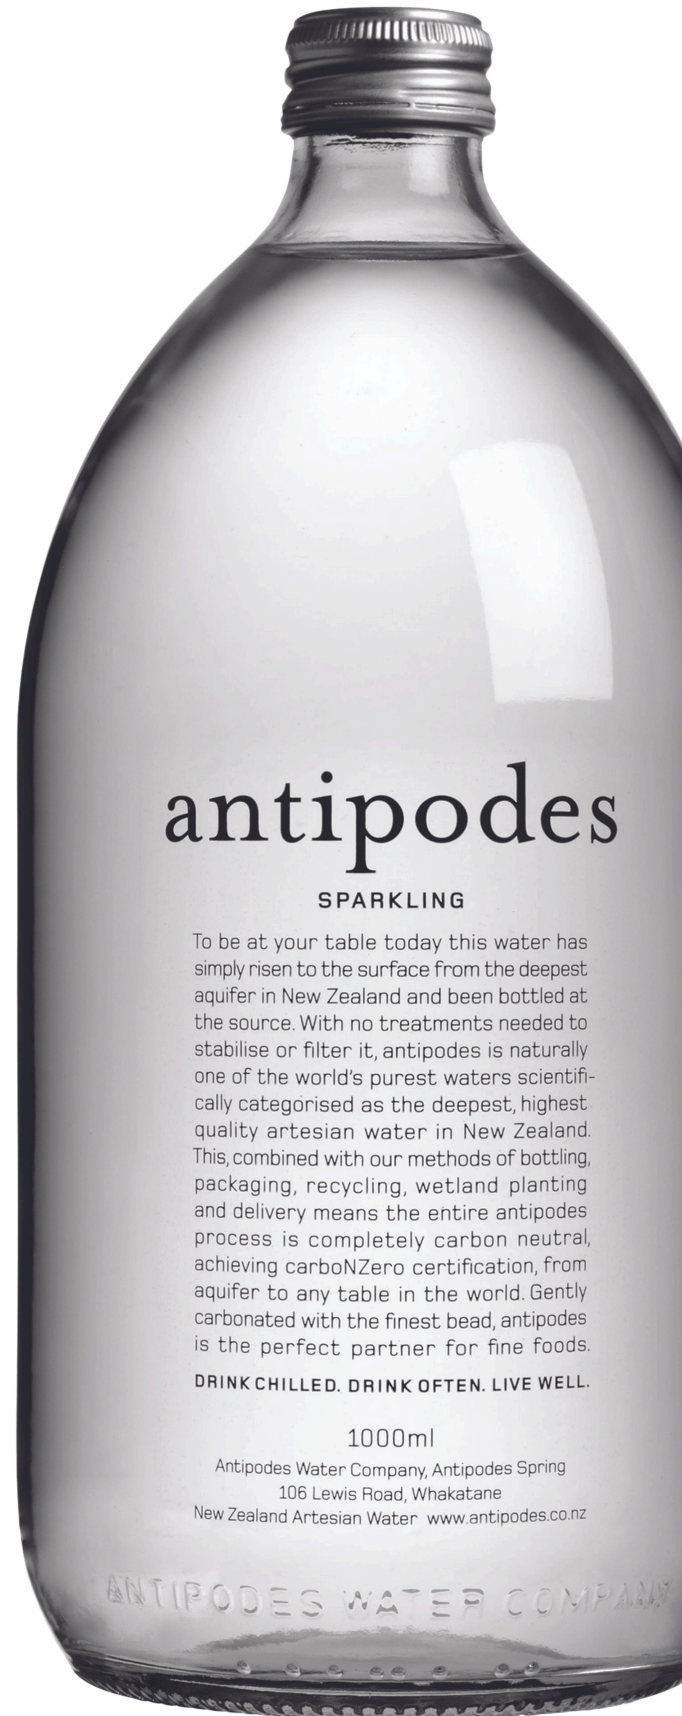

Developed by Sommeliers for Sommeliers.

This exceptionally pure water is unaltered from its deep source to the bottle on the table, thanks to a remote origin.

A water's subtle taste comes from it's fine balance of minerals. The minerality of Antipodes, just 130 milligrams per liter and primarily composed of silica, is remarkably low and light.

The resulting flavor is almost imperceptible and the gentle, silky texture is perfect for cleansing and refreshing the palate. It's also a pH neutral 7.0 at source, which contributes to its unique clean and subtle taste.

Still Water	16.9 fl oz	24/cs
Still Water	33.8 fl oz	12/cs
Sparkling Water	16.9 fl oz	24/cs
Sparkling Water	33.9 fl oz	12/cs

antipodes

SPARKLING

To be at your table today this water has simply risen to the surface from the deepest aquifer in New Zealand and been bottled at the source. With no treatments needed to stabilise or filter it, antipodes is naturally one of the world's purest waters scientifically categorised as the deepest, highest quality artesian water in New Zealand. This, combined with our methods of bottling, packaging, recycling, wetland planting and delivery means the entire antipodes process is completely carbon neutral, achieving carbonZero certification, from aquifer to any table in the world. Gently carbonated with the finest bead, antipodes is the perfect partner for fine foods.

DRINK CHILLED. DRINK OFTEN. LIVE WELL.
